

AIRZONE

**THE NEW
ERA OF**
AIR CONDITIONING

Air conditioning solutions for houses or apartments are plenty, with splits and ducted units being the most widespread. However, these solutions are generally linked with high energy consumption and can only set a single temperature for the whole house.

**ENJOY THE SMART AIR CONDITIONING EXPERIENCE.
ENJOY AIRZONE.**

MAIN BENEFITS

AIRZONE

INDEPENDENT TEMPERATURES

Select the perfect temperature for each room and modulate your air conditioning when desired using just one AC unit.

SAVE MONEY

Turn on only the zones you are using. Take advantage of the use of electricity during off-peak hours.

ENERGY EFFICIENCY

Our energy-saving algorithms favour the rational use of energy without reducing the potential of your system.

SPECTACULAR DESIGN

Brand new design. Modern, elegant layout. Exquisite finish in matte nickel and tempered glass. Easy to use and control.

ENJOY REAL COMFORT

Enjoy the ultimate comfort experience thanks to the smart air conditioning. Control the temperature of your home with Airzone Cloud. Whenever, wherever.

INTEGRATION

GUARANTEED

OUR MISSION IS CLEAR: TRANSFORMING YOUR HOME INTO A SMART HOME.

Thanks to our Airzone communication gateways®, produced in-house, you will enjoy full connectivity across your home.

We know that just as there are no two families alike, there are no two homes alike. Hence, no matter what your HVAC needs are, our systems can adapt to any type of home: apartments, houses, villas, etc.

Do not worry about the brand of your air conditioner or its nature (cassettes, ducts, splits, underfloor heating), our systems can be integrated with any type of unit of the leading AC manufacturers.
